

Fall protection

LV105

ANCHORAGE DEVICES

Stainless steel anchorage rod for sealing to prevent corrosion

Applications

- Agriculture
- Building
- Finishing works / Craftsmanship
- Maintenance
- Chemical industry
- Oil & Gas (extraction)

Certifications and norms

EN 795
TYPE A

Protects against risks

ANCHORAGE DEVICES

Stainless steel anchorage rod for sealing to prevent corrosion

Standards - Details

Technical details

Type of equipment	Stainless steel eyebolt
Composition of the main support	Stainless steel
Length	0,14 m
Color	Steel
Lifespan from manufacturing	20 years
Weight	0,174 kg
Resistance	12kN
Fall arrest work situations	Restraint, Rescue and evacuation, Long vertical movement or movement on inclined surface, Long vertical movement or movement on inclined surface for rope access work, Short vertical movement or movement on inclined surface (less than 3 m), Long horizontal movement on horizontal surface, Long horizontal movement on vertical structure, Short horizontal movement (less than 3 m)
